

#YOU Belong In
STEM

**PROGRESS
REPORT**

#YOUBelongIn STEM

Introduction

The “YOU Belong in STEM” initiative aims to enhance STEM (science, technology, engineering, and mathematics) education on a national scale.

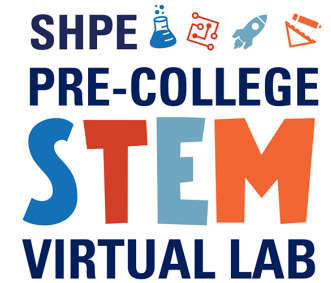

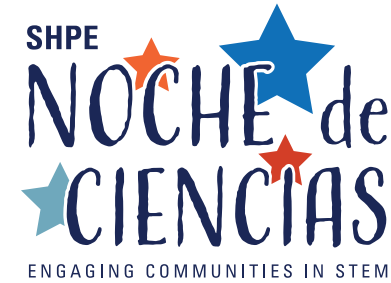

The initiative places “**Belonging**” at its core, prioritizing it as essential for a thriving STEM ecosystem in our country. **Familia** is deeply embedded in SHPE, impacting all aspects of our work and fostering a sense of belonging. We are dedicated to providing our members and their families, from PreK to higher education, with the resources needed to excel in a challenging, relevant, and rewarding STEM education.

To achieve this, we will connect participants with Hispanic STEM role models to share their stories, resources, and experiences in both English and Spanish

Pre-College Programming

Through our pre-college programming, including [Virtual STEM Labs](#), [Noche de Ciencias](#), and Día de Ciencias, we aim to increase STEM awareness among K-12 students. These programs are structured to achieve three core objectives:

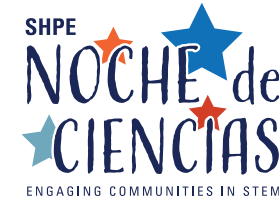

- 1 Increase STEM Awareness
- 2 Increase STEM Self-efficacy
- 3 Increase STEM Identity

By 2025, SHPE's pre-college programming will engage & inspire

over 7,500 Hispanic Youth

to pursue STEM degrees and careers

Pre-College Programming Commitment

SHPE's pre-college programs will engage and inspire over 7,500 Hispanic youth from 2023 to 2025.

Progress

Virtual STEM Labs: Between January 2023 to January 2024, we have delivered 24 Virtual STEM Labs with support from 3M, USAA, Bechtel, Chevron, Dow, and Danaher Foundation.

Equipando Padres

Equipando Padres provides the parents of first-generation-to-college Hispanic students with the knowledge and tools necessary to better support their children in earning engineering degrees.

**EQUIPANDO
PADRES**
SUPPORT YOUR STUDENT'S SUCCESS

We will serve
2,000
parents & caregivers
by 2025

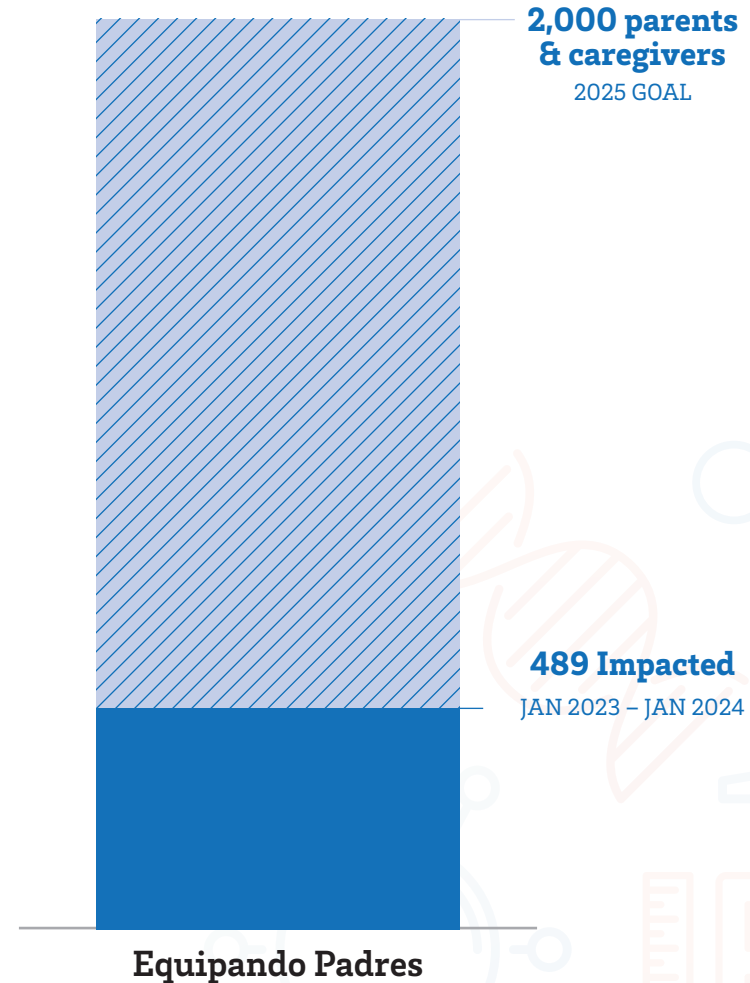

Equipando Padres

Commitment

SHPE's Equipando Padres program will serve 2,000 parents & caregivers by 2025.

Progress

Between January 2023 to January 2024, 4 in-person events and 10 virtual events were delivered. The in-person events were held in Arizona, California, Florida and Puerto Rico, with sessions in both English and Spanish.

Scholarships

The [ScholarSHPE program](#) aims to improve representation and increase the persistence of Hispanic students in STEM careers by providing crucial financial support. By alleviating the financial burden of higher education, the program not only encourages students to pursue STEM fields but also demonstrates the commitment of the STEM industry and their SHPE Familia to their future success. The recipients of the program span from high school seniors receiving support for their first year of college to doctoral-level students.

The ScholarSHPE program will provide
\$3.6 million
in financial support by 2025

ScholarSHPE

Commitment

SHPE's ScholarSHPE program will award a total of \$3.6 million in financial support by 2025.

Progress

In the 2023-2024 scholarship cycle, 1,413 applications were completed. A notable 57% increase from the prior year, with over 377 students receiving scholarship awards ranging from \$1,000 to \$25,000 with a total of \$1.6 million in financial support combined.

This progress brings us to a total award to date of \$3.3 million towards our \$3.6 goal by 2025.
